ChartOne, Inc.*

AN OPTIMUM SOLUTION

Optimum provides clients with world-class enterprise system implementation and integration consulting services. Our highly experienced consultants, team based approach and our industry-leading OptimumMETHODSM provide a proven, cost-effective combination that will ensure your project's success.

BUSINESS PROCESS EXPERTISE

Optimum's core competency is business process expertise: our knowledge of best practices and deep industry experience form the foundation for all of our services allowing us to provide truly optimized end-to-end solutions. Each of our practice areas is composed of individuals who have deep business process knowledge, industry backgrounds, strong system skills and project leadership capabilities to provide clients with effective, holistic solutions.

CENTERS OF EXCELLENCE

Optimum's Centers of Excellence possess the industry's foremost expertise across the full line of Oracle's Enterprise Solutions including E-Business, PeopleSoft Enterprise, Siebel, Demantra and Fusion Applications.

OPTIMUM LABS

At the core of all of our client services is the technology hub that is encompassed in OptimumLABSSM, giving us the capability to deliver a complete system solution. Optimum Labs can offer immediate and cost-effective solutions to clients seeking to jumpstart implementation or upgrade projects, eliminating the need to wait for the delivery and setup of an in-house infrastructure, and can be an asset throughout the full project lifecycle.

SUPPORT SERVICES

Our industry-leading OptimumSUPPORTSM Program offers access to our world-class implementation resources through a cost effective, on-demand support program designed to deliver the highest quality assistance to you when your business demands it.

SYSTEMS ARCHITECTURE

Systems Architecture Optimization is one of Optimum's core areas of expertise. We specialize in integrating systems and processes throughout the enterprise, helping companies realize real-time data sharing between each of their business-critical systems.
